PROFESSIONAL SUMMARY

Web and Mobile Developer, graduate of an AEC in Web and Mobile Programming from Institut Teccart (2024). Skilled in software development (front-end, back-end, databases) as well as systems and networks (Linux, administration, technical support). Gained experience through academic project management, user support, and team collaboration in demanding environments. Motivated, detail-oriented, and solutions-driven, I am eager to contribute to innovative projects in development, operations, and technical support.

SKILLS

- Web & Mobile Development: HTML5, CSS3, JavaScript (ES6+), PHP, C#, React.js, Node.js, Express.js, Laravel, Bootstrap
- Tools & Methods: Git/GitHub, Postman, VS Code, Figma, MVC, REST APIs, OOP, Responsive Design
- Networking & Security: Network protocols, maintenance and administration, web server and database deployment
- Databases: Oracle Database, SQL Server, MySQL, MongoDB
- Systems & Administration: Linux (shell scripting, service management, security), Unix (fundamentals), Windows Server
- Soft Skills: Attention to detail, documentation, technical support, teamwork, compliance with procedures
